## **members of the public.**

Resident of Dereham Road expressed concerns about the deterioration of no.9 Dereham Road. There is water ingress to their properties and props installed to prevent serious structural damage. The house is increasingly becoming unsafe and requested an update on the current situation. Cllr Kiddle-Morris is going to report this to the Cabinet Member and will update the neighbouring properties with the outcome.

Lexham Road footpath, despite this path having been resurfaced a resident has reported weeds growing through. County Cllr Kiddle-Morris will visit the site and contact highways to report this.

Complaints have been brought to the Parish Council, Litcham school and others regarding parking and highways issues during dropping off and picking up students. They are concerned it is becoming a serious health and safety problem at these times of the day, because of indiscriminate parking blocking entrances, close to junction and fully on pavements. This makes the flow of traffic through the village almost impossible and often leads to gridlock. There were suggestions for lines, crosshatching and flashing lights and car park away from the school.

County Cllr Kiddle-Morris replied, that land outside the shop is highways land and you are allowed to park and drive over this land.

The Parish Council have had several meetings and discussion before with the School on seeking a solution without success. After a long discussion County Cllr Kiddle-Morris will continue to make further enquiries to see if any solution can be considered. The Clerk will write to Litcham School and ask for their comments as to how they might mitigate the number journeys into the village to both sites. Perhaps the school travel plan should be looked at again before a further increase of numbers on roll, therefore reducing the number of single journeys.

## **9. To Receive any updates from County and District Councillor**

Please see the website and attachment for the full report due to the length of the reports.

## **10. To report and update on highway matters**

Due to the overgrowth of trees and hedges on back lane, the clerk will contact the owner to ask about trimming them back. Highways to be consulted to side out both verges. The clerk will report this to highways.

An area on Lexham road adjacent to Coronation Cottages has been flooded, the gully needs to be checked/cleaned. The clerk will contact highways.

Damaged dropped kerb stones to the pavement have been noted on

Church street, opposite Mouse cottage, these have been previously reported, the clerk will chase this up.

A 30mph sign on Front street is covered in ivy; the clerk will contact the householder and request for this to be cut back.

The council are still waiting for SLOW road markings to be carried out by highways, the location is either side of the Cattle grids, the clerk will chase this up.

The clerk updated the council regarding the speed sign SAM2, it is presently being repaired and the council confirmed that they will contribute to the repair fee. The council would still like to remain part of the syndicate group. The council agreed to contribute to the payment of the repair and will continue with the sign. The clerk will confirm the locations of the sign to be displayed with District Cllr Kiddle-Morris and contact the new SAM2 co-ordinator.
